

# Proceed® Textures

## Proceed® Smooth Transparent Glazing Texture

Smooth Transparent Glazing Texture creates the look of traditional waxed finishes and produces smooth, hard and transparent layers of color for formal and contemporary looks. May be tinted with Proceed® Pigment Dispersions, or Proceed® Slow-Drying Fluid Acrylics and Proceed® Metallic Mediums.

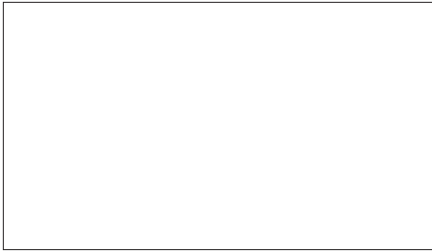

## Proceed® Smooth Translucent Texture

Smooth Translucent Texture conveys rustic and refined, old world and contemporary looks rich in texture. Tint with Proceed® Pigment Dispersions. Use high transparency pigments to maximize translucency of the final finish. High-hiding pigments will result in an opaque finish.

## Proceed® Smooth Absorbent Texture

Smooth Absorbent Texture creates the look of European plaster and can convey rustic and refined, old world and contemporary looks rich in texture. Tint with Proceed® Pigment Dispersions.

## Proceed® Rough Regular Texture

Rough Regular Texture creates translucent to opaque cut stone and stucco finishes as well as sand wash looks. Tint with Proceed® Pigment Dispersions. Use high transparency pigments to maximize translucency of the final finish. High-hiding pigments will result in an opaque finish.

## Proceed® Rough Irregular Texture

Rough Irregular Texture creates old, chalky European surfaces with a crusty, natural texture of weathered stone or plaster. Tint with Proceed® Pigment Dispersions.

## Proceed® Smooth Light-Bodied Texture

Smooth Light-Bodied Texture is a supple and warm texture for creating durable, yet soft fabric-like tactile finishes.

## Proceed® Metallic Texture - Gold Based

Metallic Texture bridges contemporary and old world looks with rich texture and the shimmer of metallic colors. Tint with Proceed® Pigment Dispersions. Use high transparency pigments to maximize the metallic luster.

## Proceed® Metallic Texture - Pearl Based

Metallic Texture bridges contemporary and old world looks with rich texture and the shimmer of metallic colors. Tint with Proceed® Pigment Dispersions. Use high transparency pigments to maximize the metallic luster.

## Proceed® Glass Bead Texture

Rough Irregular Texture creates old, chalky European surfaces with a crusty, natural texture of weathered stone or plaster. Tint with Proceed® Pigment Dispersions.
